📍 Los Angeles

From our California office, Desiree Campos supports MEA's engineers and provides top-notch customer service to our clients. She thrives in the fast-paced environment of forensic consulting "I learn fast. I work fast. I even walk fast! If I'm told to do something, I take pride in doing it right away, without having to ask additional questions."

With prior experience working as an escrow officer and in the construction industry, Desiree understands what is needed to keep projects on track, and to liaise between clients and service providers. Scheduling and coordination are second nature to her, and she excels at maintaining relationships with clients while making sure deadlines are met.

MEA Forensic is a good fit for Desiree's expeditious and curious work style. "As a Project Coordinator, I'm never bored. I find the work that our engineers and clients do extremely interesting. I'm excited to wake up and come into the office because every day is different."
